IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Applicants: Fumiaki ARAI et al. Serial No.: not yet assigned

Filed : concurrently herewith

For : THERMOSENSITIVE STENCIL PAPER

AND METHOD OF PRODUCING THE SAME

PRELIMINARY AMENDMENT

1185 Avenue of the Americas New York, N.Y. 10036 January 30, 2002

Hon. Commissioner of Patents and Trademarks

Washington, D.C. 20231

SIR:

Please amend the above-identified divisional application, which is being filed concurrently herewith, as follows:

IN THE SPECIFICATION:

Page 1, between the title and "BACKGROUND OF THE INVENTION" insert:

-- CROSS REFERENCE TO RELATED APPLICATION

--This application is a division of applicants' copending U.S. patent application Serial No. 09/204,603, filed December 3, 1998, now allowed, the entire disclosure of which is incorporated herein by this reference.--

IN THE CLAIMS:

Cancel claims 1 - 10 inclusive.

Amend claim 21 as follows:

21. (Amended) The method of producing a thermosensitive stencil paper as claimed in Claim 15, wherein said water-in-oil emulsion of said polyurethane resin is prepared in such a manner that finely-divided particles are dispersed in a solution of said

polyurethane resin to prepare a dispersion, said finely-divided particles being produced by allowing an active hydrogen containing polyfunctional compound to react with an organic polyisocyanate, and said dispersion is prepared into said water-in-oil emulsion using an emulsifier.

REMARKS

A cross reference to the parent application has been inserted at p. 1, as 37 C.F.R. §1.78 requires. Claims 2 - 10, allowed in the parent application, have been cancelled. An obvious error in the preamble of claim 21 has been corrected (claim 15, on which claim 21 depends, is a method claim). Attached hereto is a marked-up version of the changes made to the claim by the present Amendment. The marked-up version is captioned "Version with markings to show changes made."

Claims 11 - 21 are presented in this divisional application. These claims were cancelled in the parent application following a requirement for restriction.

Respectfully,

Mistyler C. Duskan Christopher C. Dunham

Reg. No. 22,031

Attorney for Applicants Tel. (212) 278-0400

VERSION WITH MARKINGS TO SHOW CHANGES MADE

IN THE CLAIMS:

Claim 21 has been amended as follows:

21. (Amended) The method of producing a thermosensitive stencil paper as claimed in Claim 15, wherein said water-in-oil emulsion of said polyurethane resin is prepared in such a manner that finely-divided particles are dispersed in a solution of said polyurethane resin to prepare a dispersion, said finely-divided particles being produced by allowing an active hydrogen containing polyfunctional compound to react with an organic polyisocyanate, and said dispersion is prepared into said water-in-oil emulsion using an emulsifier.
